Special Exception & Variance Petitions Dear Mr. Tresselt:

RE: Item No. 240 - Case No. 84-318-XA

The Zoning Plans Advisory Committee has reviewed the plans submitted with the above referenced petition. The following comments are not intended to indicate the appropriateness of the zoning action requested, but to assure that all parties are made aware of plans or problems with regard to the development plans that may have a bearing on this case. The Director of Planning may file a written report with the Zoning Commissioner with recommendations as to the suitability of the requested zoning.

This hearing originates from the proposal of the State Highway Administration to acquire a portion of an existing golf course for the right-or-way of the proposed Northwest Expressway. In order to relocate the parking area for said use, this combination hearing is

After a number of conversations, concerning the site plans required for this hearing, it was the Zoning Commissioner's decision that the site plan, as submitted, would suffice.

Enclosed are all comments submitted from the members of the Committee at this time that offer or request information on your petition. If similar comments from the remaining members are received, I will forward them to you. Otherwise, any comment that is not informative will be placed in the hearing file. This petition was accepted for filing on the date of the enclosed filing certificate and a hearing scheduled accordingly.

Very truly yours, Michaelas B Commodari hie NICHOLAS B. COMMODARI, Chairman Zoning Plans Advisory Committee

> Re: Item #240 (1983-1984) Property Owner: State Highway Administration 470°S. from centerline Westminster Pike 2900' W. Hanover Pike Acres: 1.720 District: 4th

Dear Mr. Jablon:

The following comments are furnished in regard to the plat submitted to this office for review by the Zoning Advisory Committee in connection with the subject

This entire proposal is a part of the State Highway Administration project in connection with the Westminster Pike (Md. 140) - Northwest Expressway Interchange. Therefore, all improvements, intersections, entrances, drainage requirements and construction affecting a State Road right-of-way are subject to the standards, specifications and approval of the Maryland State Highway Administration in addition to those of Baltimore County.

There is a public 12-inch water main in Westminster Pike.

This office has no further comment in regard to the plan submitted for Zoning Advisory Committee review in connection with this Item 240 (1983-1984).

OF BALTIMORE COUNTY

Case No. 84-318-XA

IN RE: PETITIONS SPECIAL EXCEPTION AND ZONING VARIANCES Beginning 470' SW of Westminster Pike, 2,900' NW of the centerline of Hanover Road - 4th Election District State Highway Administration,

FINDINGS OF FACT AND CONCLUSIONS OF LAW

.

Petitioner

The Petitioner herein, the State Highway Administration (SHA), requests a special exception to allow a golf course and ot. outdoor recreation clubs and variances to permit 65% of a parcel zoned R.C.4 to be covered with an impermeable surface instead of the permitted 10% and to remove 90% of the natural vegetation instead of the permitted 25%, as more fully shown on Petitioner's Ex-

The Petitioner, by Robert H. Tresselt, its Chief of the Right of Way Division, District 4, appeared and was represented by Counsel. Jim Mitchell, Vice President of Tom Mitchell Industries, Inc., and Robert Spellman, a registered land surveyor, also appeared and testified for the Petitioner. Phyllis C. A Friedman, People's Counsel of Baltimore County, appeared. There were no other

motion was made by the Petitioner and Tom Mitchell Industries, Inc., here pafter referred to as "owner", to amend the Petition to include the owner petitioner. Said motion was granted and the petition thereby amended. stimony indicated that the SHA requires 1.5 acres of the 43-acre tract owner by the owner, presently used as a parking lot for their golf course, for an interchange to the Northwest Expressway. The property, located in Reisterstown is zoned R.C.3. In order to save the cost of condemning the entire tract,

the State has offered an adjacent parcel containing approximately 1.7 acres and zoned R.C.4, presently owned by the State, to the owner. This parcel would be converted to a parking lot to replace the parking lot being taken for the inter-

The offer of quid pro quo is contingent upon getting the relief prayed for here and upon the State Board of Public Works acquiescing to the arrangement. Of course, the benefits to the taxpayers are self-evident. The State does not want a golf course, and the taxpayers probably do not want the State to buy one.

The owner received a special exception in or about 1970 for the golf course. At that time, the property was zoned B.L. but has since been rezoned to R.C.3. There seems to be no doubt that the adjacent property would in no way violate any of the strictures encapsulated by Section 502.1 of the Baltimore County Zoning Regulations (BCZR) if it were made into a parking lot for the benefit of the golf course. There would be no adverse impact to the community.

The Petitioners seek relief from Section 1A03.3.B.7, pursuant to Section 502.1, BCZR, for a special exception for a golf course and relief from Section 1A03.4.B.5, pursuant to Section 307, BCZR, for the requested variances.

The use as a golf course granted by special exception has continued uninterruptedly. Although the zoning has since changed, the special exception protects the property from any and all future zoning changes. The parking area to ken by the State is ancillary to the principal use of the property as a course. The parcel offered in exchange by the State will also be ancil-No use permit, i.e., special exception, need be required for parking in a res Intial zone as the proposed parcel will only replace the parking area taken State. At the very least, the use is nonconforming inasmuch as the zoning has changed. The transfer of the 1.7-acre site to the owner will not be an

addition but a substitution, and there will be no expansion of the special exception previously granted or of the nonconforming use now existing.

It is clear that the BCZR permit the use requested by the Petitioner in a R.C.4 Zone by special exception. It is equally clear that the proposed use would not be detrimental to the primary uses in the vicinity of the proposed use. Therefore, it must be determined whether the conditions as delineated by Section 502.1 are satisfied by the Petitioner.

After reviewing all of the testimony and evidence presented, it appears that the special exception as applied for should be granted, with certain restrictions as more fully described below.

The Petitioner had the burden of adducing testimony and evidence which would show that the proposed use met the prescribed standards and requirements set forth in Section 502.1. In fact, the Petitioner has shown that the proposed use would be conducted without real detriment to the neighborhood and would not actually adversely affect the public interest. The facts and circumstances of the use proposed by the Petitioner do not show that the proposed use at the particular location described by Petitioner's Exhibit 1 would have any adverse impact above and beyond those inherently associated with such a special exception use irrespective of its location within the zone. Schultz v. Pritts, 432 A.2d

The proposed use will not be detrimental to the health, safety, or general of the locality, nor tend to create congestion in roads, streets, or therein, nor be inconsistent with the purposes of the property's zoning assification, nor in any other way inconsistent with the spirit and intent of

In area variance may be granted where strict application of the zoning

DESCRIPTION FOR A SPECIAL EXCEPTION TO ZONING, WESTMINSTER PIKE

WEST OF HANOVER ROAD, 4TH DISTRICT, BALTIMORE CO., MD.

Beginning for the same at the two following courses and

distances from the intersection of the center lines of Westminster

Pike (Maryland Route 140) and Hanover Road (Maryland Route 30) thence

binding on the center of Westminster Pike North 56 degrees 17 minutes

West 2,900 feet, more or less, thence leaving the center of Westminster

Road and running South 53 degrees 15 minutes 28 seconds West 470 feet,

more or less, to the place of beginning of this description said point

being on the property line dividing the lands of Thomas G. Mitchell

37 degrees 59 minutes 27 seconds East 214.51 feet to the place of

105 W. CHESAPEAKE AVENUE TOWSON, MARYLAND 21204

& ASSOCIATES. INC......

McLean v. Soley, 270 Md. 208 (1973). To prove practical difficulty for an area variance, the petitioner must meet the following:

- 1. whether strict compliance with requirement would unreasonably prevent the use of the property for a permitted purpose or render conformance unnecessarily burdensome;
- 2. whether the grant would do substantial injustice to applicant as well as other property owners in the district or whether a lesser relaxation than that applied for would give substantial relief; and
- 3. whether relief can be granted in such fashion that the spirit of the ordinance will be observed and public safety and welfare secured.

Anderson v. Bd. of Appeals, Town of Chesapeake Beach, 22 Md. App. 28 (1974).

It is clear from the testimony that if the variances were granted, such use as proposed would not be contrary to the spirit of the BCZR and would not result in substantial detriment to the public good.

After due consideration of the testimony and evidence presented, it is clear that a practical difficulty or unreasonable hardship would result if the instant variance were not granted. It has been established that the requirement the Petitioners seek relief from here would unduly restrict the use of the land due to the special conditions unique to this particular parcel. In addition, the variance requested will not be detrimental to the public health, safe-ty, and general welfare.

Pursuant to the advertisement, posting of property, and public hearing and it appearing that by reason of the requirements of Section 502.1 having been met and the health, safety, and general welfare of the community not being adversely affected, the special exception and variances should be granted. Therefore, IT IS ORDERED by the Zoning Commissioner of Baltimore County, day of May, 1984, that the Petition for Special Exception for a Surse and, additionally, the Petition for Variances to permit 65% of the parcel to be covered with an impermeable surface instead of the permitted 10%

and to remove 90% of the natural vegetation instead of the permitted 25% be and are hereby GRANTED, from and after the date of this Order, subject, however, to the following restrictions:

- 1. The special exception and variances granted herein shall be contingent upon (a) approval by the State Board of Public Works to the transfer; (b) the State actually conveying the 1.7-acre parcel, the subject site herein, to the owner; and (c) the owner thereupon merging the 1.7 acre parcel by deed with the remainder of its property.
- 2. The subject parcel shall be utilized solely for parking, and no building or extension of the actual golf course shall be permitted.
- 3. The Petitioners shall comply with Section 409.2.c.(2), BCZR, and Section IX.A.2.a, CMDP.
